### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:
2. Claims 1, 12 and 21 are all directed toward an exhaust gas purification apparatus which is configured for regeneration of a filter. The prior art teaches a regeneration device with temperature sensors upstream, in and downstream of the filter to be regenerated and teaches a processor which utilizes the temperature of the exhaust gas and the temperature of the casing (which holds the filter) to initiate the regeneration sequence. However, the prior art neither teaches nor suggests a processor which is configured to open a switch valve to preheat a filter with exhaust gas based on the comparison of the temperature of the exhaust gas and the temperature inside the casing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MATTHEW J. MERKLING whose telephone number is (571)272-9813. The examiner can normally be reached on M-F 8:30-4:30.
